

Wireless Handheld Ultrasound

It's about the image

Automated Presets for Vet

Go through exams with ease with our specialty vet presets. If you're new to ultrasound, our intelligent auto presets will fine-tune the image for you. You won't have to fiddle around with knobs and switches if you don't want to.

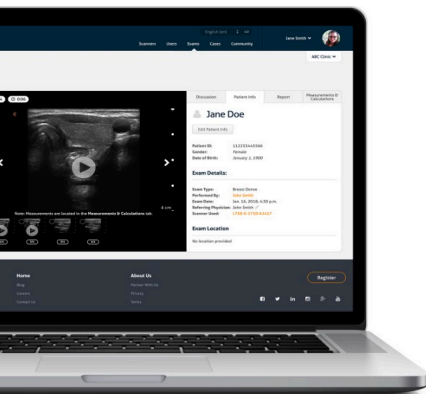

Tough and rugged

We've built Clarius with a magnesium shell to withstand busy clinics and other unpredictable environments.

Boot up in less than 30 seconds

With a start-to-scan time of under 30 seconds, Clarius Scanners are ready to scan when you are.

Instantly upload images to Clarius Cloud

Use our online exam management portal to review and share images with colleagues.

Works on iOS and Android

Clarius works on both iOS and Android smart devices. Connect to the phones and tablets you currently use.

"We purchased the Clarius ultrasound because it was the most economical and the easiest to use. You don't have to fiddle with a whole lot of settings. You just turn it on and you start your ultrasound."

Dr. Lori Keeler, Veterinarian / Willow Park Animal Clinic
